

Deluxe Performance ManagementSM

Deluxe Performance ManagementSM gives you the in-depth reporting information you need, online.

The reports are easy to use, easy to understand and easy to share. They give you a visual snapshot of your check program performance.

A wide variety of Deluxe Performance Management reports are available online to track the profitability and efficiency of your check program. And you can easily copy data into other applications for further distribution and analysis, so check program knowledge is easily shared across your financial institution.

 Easy-to-use online reports help you measure revenue, profit, expenses, channel use and other check program performance.

In a recent survey by Cap Gemini's CFO Research Services, 81% of CFOs agreed that accurate revenue and earnings forecasting is either a high or the highest priority.

– Credit Control, July 2005

Your Priorities

- Manage your check program—proactively
- Share information—easily
- Obtain comprehensive reports—quickly

Key Benefits

- Secure, Web-based reports provide all the security you expect from Deluxe for your sensitive financial data
- Intuitive, easy-to-use tutorials walk you through reporting functions
- Ongoing improvements so your reports match your needs, today and tomorrow
- With ongoing consultation, your Deluxe Account Manager can partner with you to benchmark your check program profit and cost of ownership against industry standards

NOTES:

LEVERAGE CHECKS

How it Works

1. Deluxe Performance Management provides the information most relevant to you, with online flexibility and convenience.
2. You simply retrieve the information from a secure Internet site—whenever you choose, and at the level of detail you require.
3. Flexible presentation options allow you to import the check program data into your internal applications as needed.
