

You Click. We Print+Mail.

You can now process both paper checks and eChecks from a single platform. With Print+Mail, Deluxe will prepare and send a high-security paper check on your behalf the same day you hit send, at half the cost and in a fraction of the time it takes to send a traditional paper check.

- 1

2D Barcodes ensure that the check and supplemental pages of remittance information are paired together before being inserted into the envelope.
- 2

Payer Address is shown in the return window of the envelope. Undeliverable checks will be returned to this address.
- 3

Payee Address is shown in the delivery window of the envelope. USPS address validation occurs on Deluxe Payment Exchange site.
- 4

Remittance information and a personal message can be included by the payer, telling the payee how the payment should be applied. This information is included on the second stub of the check, and up to three additional pages of remittance information can be included with the check.
- 5
