

Transform your business with a smarter receivables platform.

There's a metamorphosis happening. A digital transformation that's changing the way business gets done. **Deluxe Receivables as a Service** is the next logical step in the life cycle and digital transformation of your receivables.

- » **Smart & Efficient**
95% of RaaS customers show unrivaled, straight-through processing rates.
- » **Trusted & Reliable**
\$1.8 trillion flows through Deluxe receivables solutions every year.
- » **Fast & Accurate**
50% decreased exception handling is reported due to the precision matching capabilities of RaaS.

Every day, businesses large and small struggle with accounts receivable efficiency. The biggest challenges?

- » Growing volumes of digital payments, where each method requires its own process or system.
- » Stranded remittances that entail time-consuming manual work and delay cash application.
- » Piecemeal solutions that only address part of the problem.

It all adds up to lengthy Days Sales Outstanding (DSO), lackluster cash flow and poor visibility for strategic decision-making.

Fortunately, there's a smarter way to evolve your current processes.

Deluxe Receivables as a Service (RaaS)

is the next step in the digital transformation of your receivables. It's an all-in-one cloud solution that automates your digital and paper payment processing, improves speed and accuracy, and gives you a single source for valuable business insights.

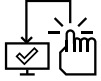

RaaS will even integrate with your current ERP system and let you maintain existing banking relationships.

BENEFITS

Get paid faster

A true digital experience speeds up the entire order-to-cash cycle.

End workaround delays

A single, intuitive online portal alleviates the issues that delay cash flow by putting everything in one easy-to-manage place.

Capture enterprise-wide insights

A holistic approach that ends data silos and a 360-degree view of your receivables allow for stronger, real-time decision-making.

Optimize liquidity and working capital

A fully automated solution brings cash to your balance sheet faster and gives you actionable insights for making intelligent choices about excess cash.

Improve customer experience

A digital transformation that delivers a convenient experience to your customers and gives your staff a single solution for handling all payment methods easily and efficiently.

HOW IT WORKS
