

Integrated Receivables

Boost receivables efficiency and insights for corporate customers while adding new revenue streams.

- » **Over 50% of** businesses surveyed by Aite-Novarica Group plan to add integrated receivables in the next three years.
- » **Over 70% of** corporate customers expect their banks to offer integrated receivables.
- » **All** Deluxe Integrated Receivables groups all payment data and images to a single ERP or accounting system post.

Businesses frequently struggle with a fragmented approach to receivables that require a separate process and data stream for every payment method. As a result, productivity, customer service and strategic decisions suffer.

Integrated Receivables from Deluxe helps your corporate customers maximize efficiency, accuracy and automation.

With Integrated Receivables, your customers can:

- » Speed cash application
- » Eliminate tedious manual work
- » Improve cash flow
- » Harness near real-time insights
- » Streamline research and customer service

For banks, this presents a great opportunity to grow relationships, add new revenue streams and differentiate their treasury services.

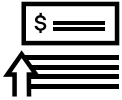

Integrated Receivables takes transaction data, remittance details, images, plus communications (i.e., emails) and converts the information into a single dashboard. It normalizes, matches, and transforms the data, plus auto posts to your ERP or accounting system providing excellent insight for better management of AR processes.

Connect Integrated Receivables with payments from:

- » In-house or third-party lockboxes
- » ACH, wire and EDI transmissions
- » Online bill-pay services
- » Credit card providers
- » Remote deposit capture

How can Integrated Receivables benefit you?

Add new revenue streams

An advanced receivables solution positions your bank with innovative capabilities businesses are willing to pay extra for. It demonstrates a commitment to technology that customers expect.

Strengthen customer relationships

Integrated Receivables is more than just technology. We partner with each bank to help you deliver lasting value to your customers. Tap our progressive resources to analyze your data to identify top prospects, customize an approach and support your team across the sales cycle.

Create platform efficiencies

Shorten time to market with a turnkey cloud-based AR platform that flexibly integrates with your client's existing processing components. Ensure sales success with customizable marketing resources and sales advisory support.

Launch a modern receivables platform

Anchor a comprehensive, end-to-end solution with Integrated Receivables that'll transform the receivables experience for your customers.

Future-proof your receivables

Connect any of these Deluxe services through the Receivables as a Service platform for even greater automation and efficiency.
