

For the love of small business.™

Mobile/Remote Deposit Reminder

Mobile reminder makes duplicate deposits a thing of the past.

8 IN 10

small businesses either use or show the potential to use mobile banking.*

77%

of large banks have a small business mobile remote capture solution in production.**

As more and more small business customers turn to mobile deposits, we've created a newly designed business check that's easier for mobile users to track.

By adding a checkbox and dateline to the back of our checks, you can now quickly and easily:

- Recognize a previously deposited check
- Track your mobile deposits
- Prevent accidental re-depositing of checks
- See your deposit date at a glance

Mobile/Remote Deposit Reminder. Just one of the many ways Deluxe continues to provide the highest quality, most secure business checks in the industry.
